Higher Education Finances

U.S. Role in Financing Postsecondary Education Cited

More than 760,000 graduate and professional students received an estimated \$7.3 billion in federal aid in 1986, according to a study on postsecondary student aid published by the U.S. Department of Education.

"Student Financing of Graduate and Professional Education: A Report of the 1987 National Postsecondary Student Aid Study," reports that "in 1974 an estimated \$1.9 billion in financial aid was awarded to graduate and first-professional students. In contrast, in 1984 an estimated \$5.7 billion was awarded to graduate and first-professional students, a 300 percent increase in current dollars . . ."

Among study highlights are:

- ✓ In the fall of 1986, about 62 percent of all graduate students were enrolled in public institutions, while 66.5 percent of all first-professional students were enrolled in private, not-for-profit schools.
- ✓ Of the more than 1.3 million postbaccalaureate students enrolled in the fall of 1986, about 77 percent were graduate students and 23 percent were first-professional students.
- ✓ Forty-five percent of all postbaccalaureate students were age 30 or older; 80 percent of first-professional students were under age 30.
- ✓ Close to half of all postbaccalaureate students were enrolled part-time, but this varies by level of study.
- ✓ Average total education expenses for full-time postbaccalaureate students was about \$9,300; part-time students averaged \$2,992.
- ✓ Full-time first-professional students averaged education expenses of about \$13,000, while full-time doctoral students averaged expenses approximating \$7,000; full-time master's students had average expenses of about \$6,300, while part-time master's students spent less than \$3,000.

✓ Full-time medical students attending private campuses had expenses in the \$20,000 range, but full-time law students at these institutions spent approximately \$12,000.

✓ Fifty-seven percent of all postbaccalaureate students enrolled in the fall of 1986 received financial aid. Nearly three-quarters of the first-professional and doctoral students received assistance; fewer than one-half of master's-degree students received aid.

✓ Full-time first-professional and doctoral students received, on average, \$10,700, while full-time master's-degree students received an average of \$7,805.

✓ More than one-third—34.8 percent—of postbaccalaureate students in the fall of 1986 received institutional aid and 27.3 percent were awarded federal aid. Other sources of aid were: state, 5.9 percent; employers, 7.4 percent, and other sources, 3.8 percent.

✓ The average amount of institutional or federal aid received by full-time postbaccalaureate students was higher (\$6,354 in institutional aid and \$7,011 in federal aid) than the average amount of state (\$3,562), employer (\$4,023), or other aid (\$4,125).

✓ Of the postbaccalaureate students enrolled in the fall of 1986, 25 percent received a fellowship/grant; 18 percent received a tuition waiver; 20 percent received an assistantship, and 26 percent received a loan. Twenty-four percent received Guaranteed Student loans (GSL); 13 percent received some other type of loan.

✓ Full-time postbaccalaureate students received, on average, about \$4,800 in fellowship/grant aid; \$3,600 in tuition waivers; \$4,600 in assistantships, and \$7,900 in loan aid. The average GSL loan amount was \$5,100.

✓ Sixty-three percent of first-professional students received some type of loan—57 percent received GSLs, while only 16 percent of master's-degree and doctoral students received loans.

✓ Full-time first-professional students borrowed higher amounts of aid, on average (\$9,458 for any loans and \$5,489 in GSLs), than master's (\$5,264 for any loans and \$4,436 in GSLs) or doctoral students (\$4,999 for any loans and \$4,580 in GSLs).

The U.S. Department of Education report observed, "In the 1963-64 academic year, the total amount of federal, state, and institutional aid awarded to postsecondary students was over one-half billion dollars. By the 1986-87 academic year, the total amount of aid awarded to postsecondary students had grown to over \$20 billion, a 36-fold increase in current dollars."

WEST VIRGINIA. Effective July 1, 1989, The state legislature enacted some significant changes in the structure of higher education. The Board of Regents, the single governing board for all public institutions of higher education, was abolished and was replaced by two separate boards. The new Board of Trustees of the State University System will govern the universities, graduate schools, medical schools and two two-year branches of West Virginia University. The new Board of Directors of the State College System will govern the eight baccalaureate institutions and the two remaining community colleges, as well as providing closer coordination with the state's system of vocational and technical schools. This change has been made to permit each board to focus more attention on the different missions of their respective institutions. The two boards will each select a chancellor and share a common central staff. Changes in the appropriations procedures are included in the footnotes for the West Virginia tabulation.

Other unallocated	500	
Subtotal, other	5,996	5,631
Indirect fringe benefits (est)	28,600	****
Less lottery proceeds	+	-2,160
Total	252,918	251,505

*Includes Potomac State College, a two-year branch.

**Includes dedicated proceeds from the soft drink tax 9,000 9,000

***Formerly Parkersburg Community College.

****Beginning in FY1990, fringe benefits are included in the institutional figures. This change distorts year-to-year comparisons for each institution, but does not affect the comparisons of totals for the state as a whole.

+For FY1990, a portion of the state's lottery proceeds are included in the institutional figures. GRAPEVINE excludes funds which are not derived from tax funds; therefore, the institutional figures and their respective percentages of gain are somewhat overstated for FY1990.

*Includes: (\$1,000s)

 College of Medicine 13,643 14,713

 Family Practice 2,083 2,166

**Formerly designated as the technical institute at Knoxville

***Includes SREB and other programs administered by the Higher Education Commission.

Notes: For each of the fiscal years, sums were appropriated for Chairs of Excellence and Academic Scholarships, both of which are endowments, with the income going to the institutions. Also a portion of the funds previously appropriated to the contract education program are now appropriated directly to ETSU College of Medicine and UT, Memphis, for the Black Tennessean Scholarship Program

VIRGINIA
