

# School and Organization Clinical Experience Guide for the Pre-Student Teaching Document and Commonly Used ID Listing for Schools and Organizations

## Documentation

All clinical experiences should be organized in conjunction with course/professor expectations. Hours should be documented via the online pre-student teaching document form found in your [my.illinoisstate.edu](https://my.illinoisstate.edu) account.

The experience page has detailed directions to assist students with documenting student information, term, class and experience details. These details will include school, teacher, dates and classroom descriptors.

Instructional resources for documentation are also available at <https://education.illinoisstate.edu/teacher/clinical/> and include a video, flowchart, handouts and tips to assist students. Any questions can be directed to [clinicalquestions@ilstu.edu](mailto:clinicalquestions@ilstu.edu)

## School/Organizations and teachers for pre-student teaching

All pre-student teaching sites should be approved by professors based on the course/clinical expectations. Before entering a site, students must have a valid Criminal Background Check (CBC), on file with the Lauby Teacher Education Center. When documenting your experience you will be able to search for the school/organization or type the organization ID when known (commonly used organizations are attached).

- Schools- A large number of Illinois K-12 schools are in the ISU database and can be found through the search options. Occasionally a school is used for experiences that have not been previously used by an ISU student. If this is the case, students should e-mail [clinicalquestions@ilstu.edu](mailto:clinicalquestions@ilstu.edu) the full name of the school, teacher, district, city and the subject they observed. This will help us to add the school to the system and the teacher to the school. If the school is outside of Illinois and not in the ISU database, verification of teachers becomes extremely difficult. If this is the case, students should write [clinicalquestions@ilstu.edu](mailto:clinicalquestions@ilstu.edu) for documentation options.
- Community Organizations- Community organizations are typically non-school entities such as YMCAs, daycares or community groups. Clinical Questions Staff will add commonly used local (within 60 miles) community organizations within the ISU database. If your organization (non-school) is outside a 60 mile radius to Bloomington-Normal and not already in our system, we advise using the general "Community Observations" ID of 5003740 and the general teacher ID of "Community Observations" of 1000902197. The general Community Observations is not pre-set as diverse. Diversity can be marked by professors (read diversity section below).
- Teachers- Thousands of teachers are within the ISU database and tied to schools and school districts based on previous ISU student's clinical experiences, but every year teachers switch schools or are working with an ISU student for the first time. When documenting clinical experiences, if a teacher is not listed in the system, students should e-mail [clinicalquestions@ilstu.edu](mailto:clinicalquestions@ilstu.edu) the full name of the teacher, school district and subject/grade. The teacher will then be verified with the Illinois State Board of Education (ISBE) teacher database and added to the ISU database for documentation.

## Diversity

Diversity, within ISU's database, is determined from Illinois school report card data. For organizations that are not required to report via the ISBE report card, diversity is commonly identified as not diverse. This is due to not having verifiable and consistently reported data.

There are four areas of diversity that schools/organizations are judged. To be considered diverse, they must meet a minimum of two of the following diversity minimums.

- English language learner = 10% or greater
- Students with disabilities/IEP'S = 5% or greater
- Low socioeconomic status = 20% or greater

- Racial Diversity= 20% or greater

For school/organizations that do not report diversity via the Illinois school report card, students can communicate with their professors and site to determine if an experience meets diverse clinical expectations and what documentation protocol must be followed. Professors may require students to complete and submit the Diversity Affirmation form, <https://education.illinoisstate.edu/downloads/teacher/DiversityAffirmationform.pdf> .

Professors, when approving the pre-student teaching document, can then override the individual site as diverse based on the Diversity Affirmation form or through communication with the student.

## Commonly Used Schools and Community Organizations

Reminder- When using non-school based community groups/organizations, if the group is located in the local area, and not listed above, please contact [clinicalquestions@ilstu.edu](mailto:clinicalquestions@ilstu.edu) for assistance.

If your experience was at a non-local community group, out-of-state or in the Chicago Land area, please use the general “Community Observations” ID of 5003740 and the general teacher ID of “Community Observations” of 1000902197. The general Community Observations is not pre-set as diverse, but diversity can be marked by professors (read diversity section above).

### Study Abroad/Trip- Commonly Used School/Organization

- If programs add new study abroad options, please contact [clinicalquestions@ilstu.edu](mailto:clinicalquestions@ilstu.edu) for an option to be added.
